West Star Aviation, Inc Opens New 78,000 Sq. Ft. Hangar Complex

Grand Junction, CO, September 25, 2007– The West Star Aviation, Inc. facility located in Grand Junction, Colorado has just completed a major expansion project with the construction of a new hangar complex. The new hangar complex totals 78,000 square feet, which comprise a 40,000-square foot hangar and a 38,000-square foot, two-story shop, office and parts area.

The hangar complex is designed around their thriving modification and maintenance business and includes shop space for interior upholstery and modification, wood cabinetry, avionics installation and structural repair. The complex is an ultra-modern design with a foam fire security/protection system for aircraft protection and an evaporator cooling system for employee comfort.

The Grand Junction location has a total of 220,000 square feet of hangar/shop/office space and has been consistently ranked in the top 10 best maintenance facilities worldwide. The new hangar complex encompasses the Challenger and Learjet product line with the remainder of the facilities focusing on Hawker, Citation, Conquest, Falcon and Gulfstream.

Along with the new hangar complex, the Grand Junction location has expanded its paint capacity with an upgraded 12,000-square foot paint facility. This is in addition to its current 25,000-square foot three-bay paint complex.

With locations in East Alton, Illinois, Grand Junction, Colorado, and Dallas, Texas, West Star Aviation, Inc. represents the very best in aircraft maintenance capability and services. The Grand Junction, Colorado (GJT) location is a full service FBO specializing in airframe maintenance, engine repair, interior, paint and avionics upgrades for a wide variety of today's corporate and

For Immediate Release
