**West Star Aviation Inc. Completes First Universal 5-Tube
EFI-890R System Upgrade in a Falcon 50 Aircraft**

Grand Junction, CO, September 25, 2007– The West Star Aviation, Inc. is pleased to announce the installation and certification of the first 5-Tube Universal EFI-890R Advanced Flight Display in a Falcon 50 aircraft. The installation is an enhanced upgrade to the previous 4-Tube systems that were installed and certified by Premier Air Center (now West Star Aviation, In.) in East Alton, Illinois.

The 5th-Tube is integrated and installed in conjunction with the 4-tube EFI-890R Integrated Flat Panel Displays in a digital high-resolution display that replaces the original N1, N2, ITT and Fuel Flow analog gauges. The EFI-890R, including the 5th display, includes reversionary display functions for enhanced cockpit safety as well as added advantages in weight, power, cooling and reliability.

The EFI-890R system retrofit can be completed at the West Star Aviation, Inc. locations in East Alton, Illinois and Grand Junction, Colorado.

With locations in East Alton, Illinois, Grand Junction, Colorado, and Dallas, Texas, West Star Aviation, Inc. represents the very best in aircraft maintenance capability and services.
