West Star's Aspen Satellite is located on the Aspen-Pitkin County Airport (ASE).

Satellite locations offer 24/7 on call AOG Mobile service, along with limited maintenance and avionics repairs. When necessary, satellite locations utilize resources from one of the three full service MRO facilities located at East Alton, IL (ALN), Grand Junction, CO (GJT), and Chattanooga, TN (CHA).

Our highly trained and experienced technicians at each satellite location can aid in troubleshooting problems and providing solutions that are best suited to get you back in the air as quickly as possible. They can even assist in obtaining ferry permits if relocating your aircraft to one of our full service locations is necessary.

- **Minor Inspections**
- **Engine And Systems Troubleshooting And Repair**
- **AOG Assistance**
- **Parts And Accessory Exchange & Overhaul**
- **Avionics Assistance**
- **Window Repair**
