FOR IMMEDIATE RELEASE

**West Star Aviation Receives STC for MD93 Series
Digital Clock/USB Charger For Falcon 50 Aircraft**

December 13, 2018 - West Star Aviation is pleased to announce they have received an FAA STC for the installation of Mid-Continent MD93 series digital clock/USB charger in Falcon 50 Aircraft. This unique 2-in-1 solution saves panel space by combining a multi-function digital clock with dual USB charging ports.

"The MD93 delivers accurate time keeping functions as well as USB charging ports for both standard and high-power devices that are common today," said Marty Rhine, Vice President of Sales, West Star Aviation. "While seemingly simple, these units are functional, reliable and provide true value and utility to the operator. So much so, we anticipate moving into DER approvals for other aircraft soon," Rhine added.

The unit is a compact 2-inch size that fits standard panel cutout and provides both 12 and 24-hour formats of Local Time, Universal Time, Flight Timer, Countdown and Stopwatch functions on the clock. Each USB port provides 2.1 amps for charging/powering use.

Voted #1 Preferred MRO for five consecutive years from 2014-2018 in *Professional Pilot Magazine's* annual "Preferences Regarding Aviation Services and Equipment" (PRASE) Survey, West Star Aviation specializes in the repair and maintenance of airframes, windows, and engines, as well as major modifications, avionics installation and repair, interior refurbishment, surplus avionics sales, accessory services, paint and parts.

In addition to its primary facilities in East Alton, IL; Grand Junction, CO; Chattanooga, TN; and Perryville, MO, West Star Aviation also maintains satellite facilities at Aspen-Pitkin County Airport in Aspen, CO; Chicago Executive Airport in Chicago, IL; Centennial Airport in Denver, CO; Conroe-North Houston Regional Airport in Houston, TX; and Scottsdale Airport in Scottsdale, AZ. The company also provides complete FBO services for transient aircraft at its newly remodeled East Alton and Grand Junction facilities. West Star Aviation is an industry leader in technical experience and expertise while providing world-class customer services in all the organization's divisions.
