WEST STAR AVIATION NOW OFFERING INTERIOR SERVICES AT CAE

Columbia, SC, May 29, 2013- West Star Aviation is now offering interior services at their Columbia, South Carolina (CAE) location. The new interior shop is fully equipped to complete a variety of partial interior work, including upholstery, panel recovery, and carpet. West Star does not currently offer woodworking services at CAE; however, they have an aggressive plan to add additional capabilities and staff members in the near future.

“We continue to receive an increase in requests for interior work from our customers at CAE,” says Michael Durst, Executive Vice President, West Star Aviation. “In keeping with our mission to provide our customers with a complete one-stop experience for all their aircraft needs, we were compelled to meet their requests.”

West Star recently hired Keith Foster as Interior Lead, CAE, to oversee the new interior shop. With nearly 25 years of experience in aircraft interiors, Keith has extensive experience in removal and installations, as well as recovery of interior components. His many years of experience have allowed him to work on a variety of aircraft including King Air, Citation, Falcon, Hawker, and Learjet. In addition, Keith has an in-depth knowledge of compliance requirements including fireblocking and burn tests. To learn more or to schedule service, contact Keith Foster, Interior Lead, CAE, at 803-822-0186, or kfoster@wsa.aero.

West Star Aviation, Inc. specializes in the repair and maintenance of airframes, windows, and engines, as well as major modifications, avionics installation and repair, interior refurbishment, surplus avionics sales, accessory services, paint and parts.

In addition to its facilities in East Alton, IL; Grand Junction, CO; and Columbia, SC, West Star Aviation runs the maintenance operations at Aspen-Pitkin County Airport in Aspen, CO and at Spirit of St. Louis Airport in Chesterfield, MO. The company also provides complete FBO services for transient aircraft at its newly remodeled East Alton and Grand Junction facilities. West Star Aviation, Inc. is an industry leader in technical experience and expertise while providing world-class customer services in all the organization’s divisions.
