Save On Costly Avionics & Environmental Control Systems (ECS)* Exchanges Or Repairs With HAPP, MPP & CASP Programs.

West Star Aviation has a solution to extend the warranty for your aircraft avionics and ECS*. Even if your aircraft is out of factory warranty, you can protect your avionics by enrolling in the Honeywell Avionics Protection Program (HAPP), Honeywell Mechanic Protection Plan, (MPP), or the Collins, Corporate Aircraft Service Program (CASP). Save big on avionics not covered by warranty.

The HAPP program is a maintenance service program covering more than 50 different platforms designed for commercial helicopters, business and general aviation. HAPP is an extended warranty program that offers full coverage for all Honeywell Avionics.

MPP is an extended warranty program that offers coverage for the ECS on certain airframes.

Corporate Aircraft Service Program from Rockwell (CASP) is designed to maximize your aircraft dispatchability while reducing life cycle costs. CASP offers maintenance and service for your onboard avionics and cabin entertainment equipment.

*Only certain airframes qualify for MPP
