Satellite Manager (CXO)

Cell: 936.333.3113

West Star's Houston satellite location is located at Conroe-North Houston Regional Airport (CXO) and provides aircraft maintenance support for Houston Metropolitan Airports.

CXO's satellite location offers drop in and AOG/MRT aircraft services in the entire Houston area. When necessary, satellite locations utilize resources for one of the four full service MRO facilities located at East Alton, IL (ALN), Grand Junction, CO (GJT), Chattanooga, TN (CHA), and Perryville, MO, (PCD).

Our highly trained and experienced technicians at each satellite location can aid in troubleshooting problems and providing solutions that are best suited to get you back in the air as quickly as possible. They can even assist in obtaining ferry permits if relocating your aircraft to one of our full service locations is necessary.

- *Minor Repairs and Inspections including A checks and 12/24 month inspections*
- *AOG/MRT -Aircraft, Engine & Avionics Troubleshooting/Repair*
