FOR IMMEDIATE RELEASE

West Star Aviation Announces Addition of New Landing Gear Capability in Chattanooga

April 2, 2019 - West Star Aviation is pleased to announce that its recently expanded Chattanooga, TN (CHA) facility is now offering landing gear overhaul and repair for a variety of airframes.

The newly expanded facility includes an accessory and component shop allowing West Star to broaden its continued support for Embraer Phenom 100 and Phenom 300, King Air and Learjet (excluding 40 series) for landing gear inspections and overhaul services. Additional capabilities at the CHA accessory shop include both wheel and battery services. Rounding out the full service offerings available at CHA is the new state-of-the-art paint facility featuring custom cross and down drafts for precise application.

"With the larger facility, we are able to expand our market presence and services to our customers while continuing our proven success for landing gear repair and overhaul, along with performing any other maintenance requirements at the same time," said Steve Goede, General Manager West Star Aviation, Chattanooga. "With each added capability, we are able to provide our customers the convenience of a one-stop shop," Goede continued.

Voted #1 Preferred MRO for five consecutive years from 2014-2018 in Professional Pilot Magazine's annual "Preferences Regarding Aviation Services and Equipment" (PRASE) Survey, West Star Aviation specializes in the repair and maintenance of airframes, windows, and engines, as well as major modifications, avionics installation and repair, interior refurbishment, surplus avionics sales, accessory services, paint and parts.

In addition to its primary facilities in East Alton, IL; Grand Junction, CO; Chattanooga, TN; and Perryville, MO, West Star Aviation also maintains satellite facilities at Aspen-Pitkin County Airport in Aspen, CO; Chicago Executive Airport in Chicago, IL; Centennial Airport in Denver, CO; Conroe-North Houston Regional Airport in Houston, TX; Minneapolis/St. Paul International Airport in Minneapolis, MN and Scottsdale Airport in Scottsdale, AZ. The company also provides complete FBO services for transient aircraft at its East Alton and Grand Junction facilities.

West Star Aviation is an industry leader in technical experience and expertise while providing world-class customer services in all the organization's divisions. For more information visit www.weststaraviation.com or call 800-922-2421.
