Manual Control

- A. Procedures for revising West Star Aviation Capability list.
1. The Accountable Manager will be responsible for making and submitting revisions.
 2. The Capability List will be kept in electronic format accessible on West Star Aviation (WSA) computer network. An up-to-date electronic version will also be available on West Star Aviation's Shared Network File computer system, which is available for employee use and reference. The revised list and any other necessary technical data will be submitted via email within 5 business days of revising to West Star Aviation's Principal Inspector at the Nashville Flight Standards District Office.
 3. Revised material will be indicated by revision bars on the side margins. All revisions will be dated using the revision approval date by the Accountable Manager. The table of contents and list of effected pages will also be updated to reflect the revision.
 4. The cover page of the manual will be approved and signed by the Accountable Manager.
 5. The Nashville Flight Standards District Office will receive a copy of the Capabilities List showing revision(s) in an electronic format, and will be sent to the assigned Principal Inspector (PI) for the acceptance.
- B. Procedures for self-evaluation and reporting the results of the self-evaluations for the capability list 145.215(c)
1. Self-evaluation will be performed when another aircraft, engine, or article needs to be added or removed.
 2. An example of the General Repair Station Needs Assessment Form WSAF 1199 can be found at the end of this manual.
 3. The Accountable Manager will perform the self-evaluations and must have the following qualifications:
 - a. Experience with performing evaluations.
 - b. An understanding of the requirements of Part 145.
 - c. Knowledge of the maintenance requirements for the particular make/model of article to be added to the list.
 4. Each article in the list must have a General Repair Station Needs Assessment Form WSAF 1199 completed by the Accountable Manager.
 5. This form must be completely filled out, signed and available for review to the Nashville Flight Standards District Office.
 6. The General Repair Station Needs Assessment Form WSAF 1199 will be kept in an electronic version available on West Star Aviation's Shared Network File computer system for a minimum of 2 years.
- C. Procedures for reporting deficiencies found.
1. WSAF 1315 Corrective Action Form will be filled out to report any deficiencies found during the self-evaluation. This form will be used to report to the Accountable Manager for review and resolution.
 2. The WSAF 1315 Corrective Action Forms will be kept in an electronic version available on West Star Aviation's Shared Network File computer system.
- D. Procedures for completing the General Repair Station Needs Assessment Form WSAF 1199 and the procedure for its use are located at the end of this manual.

General Repair Station Needs Assessment Form WSAF 1199

General Repair Station Needs Assessment Form WSAF 1199 - Instructions for Completion

- A. The purpose of this form is to evaluate all the primary aspects of being able to support and return to service Products or Articles. This form will be completed prior to submitting an application to revise WSA's Operational Specifications.
- B. This form will be completed by the Accountable Manager.
- C. Needs Assessment For - Check the Applicable Box:
 - 1. Airframe.
 - 2. Engine.
 - 3. Component.
 - 4. Process/Procedure.
 - 5. Specialized Tooling.
- D. Model or P/N - List one or a combination of the following:
 - 1. Product and/or Article Name.
 - 2. Applicable Part Number.
 - 3. Process/Procedure Document Number.
- E. Determine that the Repair Station meets the following minimum requirements:
 - 1. Applicable Training.
 - 2. Current Technical Data.
 - 3. Adequate Facilities.
 - 4. Adequate Tooling.
- F. Signed by the Accountable Manager.

Example of form follows

GENERAL REPAIR STATION NEEDS ASSESSMENT

NEEDS ASSESSMENT FOR:

Airframe: Engine: Component: Process/Procedure: Specialized Tooling:

Model or P/N: _____

DOES THE REPAIR STATION HAVE THE FOLLOWING IN PLACE IN ORDER TO WORK AND RETURN TO SERVICE THE ABOVE STATED PRODUCT OR ARICLE?

TRAINING: _____

TECHNICAL DATA: _____

FACILITIES: _____

TOOLING: _____

QUALITY ASSURANCE MANAGER Print: _____
Sign: _____
